### Data Collection Plan & Raw Data Sources Identification Template

Elevate your data strategy with the Data Collection plan and the Raw Data Sources report, ensuring meticulous data curation and integrity for informed decision-making in every analysis and decision-making endeavor.

#### Data Collection Plan Template

| Section                     | Description                                                                                                                                                                                                                                                                                                      |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Project Overview            | The Global AI in Education Analysis using Tableau project analyzes worldwide AI adoption in education using an interactive Tableau dashboard and story. It presents KPIs and visualizations to compare AI adoption, investment, infrastructure, institutional readiness and student engagement across countries. |
| Data Collection Plan        | The project uses a Global AI in Education CSV dataset collected from public sources. The dataset was cleaned by removing duplicates, handling missing values, standardizing country and category names, and validating data types before importing into Tableau.                                                 |
| Raw Data Sources Identified | <ol style="list-style-type: none"> <li>1. Global AI in Education Dataset containing country-wise AI adoption indicators.</li> <li>2. Public education statistics and AI implementation indicators used for visualization and comparative analysis.</li> </ol>                                                    |
