Project Title	Global AI in Education Analysis using Tableau
Maximum Marks	3 Marks

Data Quality Report Template

The Data Quality Report Template will summarize data quality issues from the selected source, including severity levels and resolution plans. It will aid in systematically identifying and rectifying data discrepancies.

Data Source	Data Quality Issue	Severity	Resolution Plan
Global AI in Education Dataset	Missing values in selected records, duplicate entries, inconsistent country and institution names, inconsistent text formatting, blank fields and incorrect data types that may affect Tableau dashboards and story analysis.	Moderate	Removed duplicate records, handled missing values, standardized country and institution names, corrected text formatting, validated data types, and verified the cleaned dataset before creating KPIs, visualizations, dashboards and Tableau Story.
